WELLBEING WORLD

Thank you for previously enquiring about our PPE service. Organisations such as The Salvation Army, The Richmond Fellowship, Enable and many others trust Wellbeing World to keep their stakeholders safe, but did you know we started out providing health and wellbeing learning experiences through our Fun and Fit Bike business?

When Covid-19 halted our bike activities, we switched to using our experience of health products to help others obtain best-priced fully certified PPE. Now we are the UK's first social enterprise PPE supplier to charities, Local Authorities, care service providers and businesses.
